INFAMOUS WORK FOR NAVAL MILITIA OF UTAH DEFAMERS

Slanderers Are Hurting The State.

V. S. Peet has sent the following self-explanatory letter to Hon. Fisher of the house committee on naval af- Harris, secretary of the Commercial club of Salt Lake City, Utah;

To raise money for their Westminister college, they are villifying all Utah's institutions of learn. ing and are advertising them to the whole world as mean and insufficient, and her teachers as disloyal and cor-rupt. Dr. S. E. Wishard started the infupi. Dr. S. E. Wishard started the in-famous calumny on December last in the Herald and Presbyter, when ne said, in begging money for the West-minister college, Salt Lake: "This institution is the only loyal American college in the State of Utah, or within 500 miles of Salt Lake City. The state University, Salt Lake

The state University at Salt Lake is dependent upon a Mormon Legislature for its financial life. About half of the professors are reported to be Mormons. The other teachers are dependent upon Mormon favor for their positions and mainlenance, hence the University lifts neither voice nor pen again Mormon violation of law or in defense of American institutions. The great civil and moral issues pressing upon the State of Utah and the adjacent state and of Utah and the adjacent states and territories are repressed and ignored.

"We who have long tolled in Utah and have profoundly studied the pecilous problems confronting both church and state; we who are standing by the flag and the purity of the home, are convinced that Christian education and Gospel evangelization are the instrumentalities that are to save Utah Hence we must push this educational and missionary work."

NAMES HIS MEN.

During the spring months of this year Robert M. Stevenson, D. D., president of the Salt Lake Westminister college, made a begging tour through the east for this college. In Baltimore he delivered an address in a large Presbyterian church. He used Dr. Wishard's exact words, except that he said this college was the only loval American college was the only loyal American school within 600 miles of Salt Lake City. He belittled and besmeared Utah's city. He bentued and besineared ctan's schools with filthy mud, and cast shame and reproach on the schoolteachers of Utah and further stated that the only place to get a loyal American education within 600 miles of Salt Lake was at the Westminister college. at the Westminister college.

HEARD BY UTAHNS.

In his audience sat many Utah students (one of them sang in the choir) who were attending the John Hopkins university. They were so ashamed to think that Utah allowed such a villi-fier as Robert M. Stevenson, D. D., to roam at large that they did not reply Wishard and President Stevenson were too mild—they did not bring in enough cash for their college, so they issued the following appeal for money for their college. In Herald and Presbyter, May 2, 1906, and identically the same in the Interior, May 17, 1906; "Presbyterians and Patriots—Are you interested in the effort to establish pure and undefiled religion in Utah and the intermountain country. If so how much are you interested? Are you interested beyond words of sympathy? Do you realize that a form of heathenism has fastened itself on this country. ed itself on this country. . I hear some people say, send your young people to the state University. Yes, I know of a father who tried that with his daughter, and now he is broken-hearted, for now she is a Mormon and a wife of a Mormon, and dead to her

The purport of this circular is to get \$21,000 to help complete a school so that Presbyterian children will not have to go to the horrible public schools (as it intimates) of Utah. It says, send your money to Mr. Henry V. Van Pelt, treasurer; Robert M. Stevenson, D. D., president. Can any one think of a more dastardly way to raise money for a so-called Christian school? The murderer Rose, who was executed in Salt Lake two years ago, compelled his wife to follow a life of shame furnish him money. How much better are the people who will falsely advertise our schools, our teachers, and our children as low, debased and dis-

loyal to raise money for the West-minster college? "Truth" in its magnificent special edition of May 26, proclaims on the first page. "That Utah is the educational center of half a dozen states." This is signed by nearly all of the best business men in Utah. It also says of Salt Lake in the same edition: "It has the finest public school build-ings of any city in the United States, education than can be found anywhere The public schools, grade and high

schools, are free to all. The state Uni-versity is located in Salt Lake City, and is an institution of which any state might justly be proud. There are also numerous private educational establishments, such as Westminster Presbyterian college, the Latter-day Saints university, the Collegiate insti-tute. All Hallows college, Rowland hall, St. Mary's and others. Salt Lake is the educational center of the inter-mountain states, from all of which the better class of people send their chil-dren to Salt Lake to be educated."

UNDOES THE GOOD.

While the business men, the railroads and all true citizens of Utah are spending time and money in letting the world know what excellent schools
Utah has, the trustees of the Westminster college, through Dr. Wishard,
Robert M. Stevenson, Henry V. Van Peit and its circulars are procialming to the world, that all the schools within 600 miles of Salt Lake are disloyal, degraded, and do not respect the American flag; that all the teachers within this radius are corrupt and disloyal, except the Westminster college and its corps of teachers; that a father was broken hearted, because his daughter attended the University of Utah; that a mother trembled because her chila mother trembled because her chi-dren attended the public schools, etc. It is almost impossible to get people to immigrate to Bear River valley or Utah who have read the Westminister College circular above referred to, One lady said she would not think of mov-

ing or allowing her friends to move to

a state, where it taught disloyalty in its schools by corrupt teachers, and she showed President Stevenson's circular in the Herald and Presbyter to confirm her statement. If the Commercial chab the M. & M. association

and other Utah builders wish to encourage good settlers and capital to Utah, they must at once deny the false and infamous stories that Dr. Wishard and President Robert M. Stevenson are spreading through the length and breath of the land. The time has come for the Commercial club and and other kindred societies, if they wish to induce capital and settlers to upbuild Salt Lake City and Utah, to lay aside religion and politics and combat all Utah slanderers and defamers no matter from what source they come

Street Profanity.

St. Louis is trying to stop profanit; on the streets by drastic measures. The police have received orders from using bad language. The outcome will be watched with interest and slight hopefulness for the same thing has been tried in other cities with poor success. A beginning seems to have been made at St. Louis in fining a members of the police force \$90 for of-fending. This, on the principle that re-form, like charity, begins at home, is a good start. It may urge the police officers to pursue the reform strenuously. Street swearing is a nuisance which ought to be curbed, and it is common in every city. If it can be stopped in St. Louis, then the attention ther cities must be attracted to the methods used there, and they must be given a wider trial. The swearing nuisance afflicts the ears of every wo man shopper and of every other person whose sensebilities are at all delicate. them stand the rough usage that summer clothes get. The patterns are checks and plaids, both grave and gray, from which you may choose according to your humor. You may have either single or doublebreasted coats, with a cut that is dashing and novel or primly sedate, and the clothes are tailored and finished with all the little niceties characteristic of the best custom-
